THAT'S THE DIFFERENCE

Founded in 1994 by Dave and Deirdre Byatt, Monaro Screens is a family owned and operated business that has grown into a Canberra icon.

The same principles that the company was built on of professional and dedicated attention to every customer are still in evidence today as the second generation of this family business carries the business into the next 25 years.

Monaro Screens is now Canberra's finest and most comprehensive designer, manufacturer and installer of made-to-measure Shower, Bath and Security Screens, along with mirrors, glass splash backs, wardrobe doors, retractable screens, as well as being an authorised and licensed Crimsafe Supplier who works in conjunction with Crimestoppers.

Our modern Fyshwick showroom is open Monday to Saturday and features a wide variety of displays and samples.

Showroom Open Hours are:

Monday - Friday: 8:30am - 4:30pm

Saturday: 9:00am - 2:00pm

Sunday and Public Holidays: Closed

FRAMED SCREENS

The classics never date.

If you want the latest in shower design, yet still retain the good looks and functionality of a classic screen, then you're ready for a fully framed shower screen from Monaro Screens.

Today's newer and slimmer designs, along with the latest in pivot doors, are sure to be the classics of tomorrow.

All screens are individually made to measure enabling wider openings than traditional sliding doors.

The clean uninterrupted spans of glass combined with our modern slimline frame, delivers a less obtrusive enclosure, especially in smaller bathrooms.

The pivot doors operate smoothly on double stainless steel pins with no moving parts.

Our modern designs are easy to clean with magnetic seals and full length handles.

SEMI-FRAMELESS

Sometimes it's the little things you don't notice which turns the ordinary into the extraordinary.

Like the clever yet simple features of a semi-frameless shower screen from Monaro.

Innovations such as pivoting doors that deliver a smooth and reliable two way operation with the added advantage of a "hold open" mechanism.

This same self-centering assembly ensures accurate alignment when the door is closed which delivers the luxury look of smooth sight lines.

This same style and practicality has been carried through to the gently rounded low profile frame.

And to compliment your individual style, each semi-frameless shower screen from Monaro is available in a range of colours and durable aluminium finishes.

Now's the time to experience your new screen from Monaro Screens.

Our customers LOVE their new screens, however, when it comes to keeping the glass clean and sparkling, help is at hand. We are pleased to announce the amazing new **EnduroShield™** technology.

EnduroShield™ is a revolutionary, simple to apply, invisible coating that repels water, soap scum & grime, allowing you easier cleaning, less often.

EnduroShield™ is a permanent non-stick coating ideal for all glass screens. The once only application makes grime, dirt and soap scum easier to clean by up to 90%.

Suitable for new or old glass it permanently bonds to glass and protects against staining from hard water, lime scale and soap scum.

EnduroShield™ - It's like water off a duck's back

Have you considered a glass finish for your shower space?

Made to fit any size in your precise choice of colour. Easy to clean and a dream to maintain a Monaro Screens glass shower wall will make your own personal statement.

A variety of handle and hinge shapes are available.

Doors are securely mounted on self-centering pivot hinges.

FRAMELESS

When you want the ultimate in contemporary shower screen design, then you're ready for a frameless shower screen from Monaro.

Frameless shower screens make smaller bathrooms and ensuites appear larger as the smooth transparent lines of the glass become part of the room itself.

A frameless screen is not only elegant but practical with simple lines and easy clean panels and doors.

Every screen is made to measure using toughened glass with a wide range of finishes available from crystal clear to subtle tints and frosting.

When you don't want to compromise on luxury, then it's time to choose a frameless shower screen from Monaro Screens.

BATH SCREENS

Gone are the days when limited spaces meant compromising on design or efficiency.

With today's home becoming more compact, creative planning is needed to ensure you enjoy the best of both worlds in the smaller bathroom.

This is when you need the design experience of Monaro Screens. We will ensure you maintain that clean open look while enjoying all the practical aspects a glass screen will bring.

This becomes even more self evident in smaller areas with integrated baths and showers.

An individually manufactured screen from Monaro will blend seamlessly into your new bathroom or ensuite, in either frameless or framed designs.

At Monaro we integrate practical solutions with elegance and fashion.

A mirror from Monaro is only limited by your imagination.

Mirrors add light and space to your home from the dramatic to the subtle.

All our mirrors are made to your specifications and we can assist in finding the right shape or size to suit your taste. From floor-to-ceiling to the smallest variety, no size is too big or small for Monaro.

A range of decorator edges include bevelled, polished and framed meaning there is a style to suit every room.

All mirrors feature long life heavy duty silver backing that is designed for bathrooms, en-suites and other areas of temperature and moisture extremes.

When it is time to bring out the beauty of a room or just transform the plain into the extraordinary, there is a Monaro mirror for you.

WARDROBE DOORS

Frameless handle design

Low profile unobtrusive sills

Padded door edge buffers for soft close

Easy glide rollers

Your new look bedroom is now available at Monaro Screens.

When you've had enough of unsightly shelves and unruly clothes, call us and we'll tailor a wardrobe door solution that will match any decor.

Individually designed, all our doors feature slim softly rounded aluminium frames with a variety of finishes including coloured glass, melamine or elegant floor to ceiling mirrors.

All doors glide with a minimum of effort on concealed rollers that are virtually silent and easily adjustable ensuring they work faultlessly for years to come.

A low profile sill makes the frames less obtrusive and are particularly suitable for walk-in robes.

Monaro Screens - bringing order to disorder.

GLASS SPLASHBACKS

A glass splashback will not only beautify your kitchen, but provides a practical and inexpensive solution which is easy to clean and maintain.

Say goodbye forever to scrubbing messy grouting and tiles, when you install a glass splashback from Monaro.

Available in a virtually unlimited range of colours, our toughened glass splashbacks will refresh and revitalise any kitchen, new or old.

We custom measure and cut to fit for any size kitchen, laundry or bathroom and once installed, you'll wonder how you ever lived without the ease and good looks of a glass splashback.

Wall fittings such as power and light switches are all seamlessly fitted into each design.

Made from the highest quality ultra clear toughened glass, a Monaro splashback finishes the perfect kitchen.

RETRACTABLE SCREENS

A retractable screen is the latest innovation from Monaro Screens.

A door insect screen is essential in Australia's summer, but there are those times when you just want a smooth unhindered panorama from the inside to the outside.

That's when it's time for a Monaro Retractable Screen.

Tough and secure a Monaro Retractable Screen does everything you demand from a top quality screen. It keeps pests and bugs out, and when the time comes, it rolls back into your door space to become virtually invisible.

It's new, it's revolutionary and it's here now at Monaro Screens. Ask for a demonstration today.

When you want the ultimate in home protection, demand Crimsafe.

Crimsafe is more than just patented security doors and windows - it is a complete protection system combined with modern stylish design.

With no unsightly bars and grilles, the protective stainless steel mesh far exceeds Australian security door and window standards.

Crimsafe's tamper-resistant stainless steel screw clamps "bites" onto the mesh with a vice-like grip to prevent it being pulled from the frame.

Security windows offer peace of mind knowing that in an emergency you have the one-touch "Safe-S-Cape" system.

Doors feature three-point locking with triple hinges to resist the toughest attempts to gain entry.

And now, in 2019, the brand new Crimsafe iQ door features three lock modules, providing six-point locking, and the option of electronic access with PIN code keypad, Bluetooth, key fob and fingerscan.

When you're not prepared to compromise on safety, Monaro Screens and Crimsafe are the solution.

Announcing Crimsafe iQ - Australia's strongest stainless steel security screen

Crimsafe iQ™ is super strong, super smart and has passed the toughest burglar-resistance testing in the world, making it the strongest stainless steel security screen door in Australia.

With patented technology including superior locking solutions, anti-jemmy heavy duty hinges and a wider, stronger frame, Crimsafe iQ™ is highly resistant to real-world attack.

The Crimsafe iQ™ range is our first security screen to incorporate smart technology, giving you the flexibility to choose between a mechanical (iQ-m) or electronic (iQ-e) option.

The iQ-m door features five individual lock modules, providing ten-point locking, and mechanical key lock.

The iQ-e door features three lock modules, providing six-point locking, and electronic access options including PIN code keypad, Bluetooth, key fob and fingerscan.
